

# 1073 series Cool Pad Range

## INSTRUCTION MANUAL

### Getting started

The pad is ready for use and needs no activation. Remove it from the packaging, then put on to a bed and cover it with a sheet. If using the pillow cool pad this can be attached to a pillow using the straps and then put inside a pillowcase.

### Positioning

When positioning the single bed pad, ensure the widest part of the pad is across the bed. This provides cooling to the trunk of the body without making your legs and feet uncomfortably cold. If you do want cooling to the legs and feet simply re-position the pad.

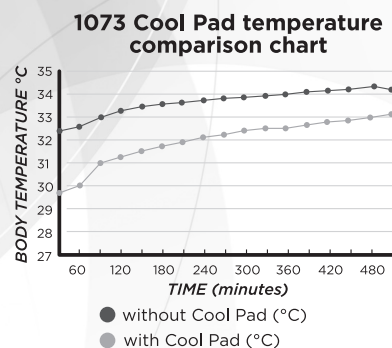

### Operation

The product will keep you cool. The heat is absorbed and dissipated through the parts of the pad not covered by your body. If used for a long period, the pad will seem less cool as it adjusts to your body heat. This is normal and the effect of the initial reduced temperature, followed by gradual warming, will aid a comfortable night's sleep.

### Extra cooling

For extra low temperature cooling the pad can be put in the refrigerator for up to 2 hours before use.

- 1073** Cool Pillow Pad  
30 x 40 cm
- 1073.1** Cool Single Bed Pad  
70 x 90 cm

# 1073 series Cool Pad Range

### Cautions

- Not suitable for children under 5 without adult supervision.
- Keep sharp objects away from the pad to avoid damage.
- If the product is damaged do not allow the gel to be eaten.
- Use is at your own risk. Please consult your doctor if in doubt.
- Keep away from fire.

### Storage

- Do not store in direct sunlight.
- Larger cool pads can be folded but smooth out on the bed before use.
- If the pad shows signs of hardening place it on a flat surface for around 12 hours.

### Cleaning

Wipe clean only.  
Do not immerse in water.  
Do not attempt to wash it in a washing machine.  
Do not attempt to dry in a tumble dryer.

### Materials

Surface - Cotton and EVA  
Gel - Glycerine / Polyacrylic / Water. Non Toxic.

### Fire Safety Standards

Cool Pillow Pad conforms to the specified test of The Furniture and Furnishing (Fire) (Safety) Regulations 1988 (AMD 1989, AMD 1993).  
Cool Bed Pads conform to BS 7177 : 2008 Fire Safety Standards.

Please retain this information for future reference.
